Subject: PEG Sustainability Workgroup Q1 2023 Meeting
Date: Wednesday, February 8, 2023 9:30:33 AM

All,

I hope the new year has started off well for each of you. I wanted to reach out and give a heads up that I will be sending out an invite for our Q1 2023 mtg to be scheduled towards the end of this month.

I have included below the notes from our last meeting as reminder of action items each of us were to take away and come prepared for this next meeting.

Please note I have not received any interest in item#6.

1. HSE Topic- Corey (Fluor) presented HSE topic on staying healthy during the holidays, increase exercise and vitamin C, increase water intake, make sure you are getting rested.
2. Spo (Bechtel) provide update from Fall PEG meeting held (Oct 19-20th); Reminder that we were all asked to have our colleagues and team members take some of the FREE training courses on sustainability that were provided during our Q3 meeting. The expectation is that we will provide feedback on these classes during our Q1 2023 meeting and decide as a group which classes provided the best information for our companies and the industry we work in. In addition the PEG members attending the Fall conference were interested in hearing more about the buy clean act as well as Environmental Product Disclosures (EPD's). DE&I is another topic that the PEG members are interested in having a workgroup manage.
3. The team on the call agreed that we would cover the Buy Clean Act research under Subgroup #3.
4. The team on the call also agreed that DE&I should be a separate workgroup with its own charter and team members. This will be recommended at the Spring Conference in 2023.
5. Subgroup #2 lead was not on the call but we decided that this sub workgroup can be closed and that the information provided in our Q3 meeting was sufficient to meet the requirements of our Sustainability workgroup Charter Goal for this item. No further action for Subgroup #2.
6. We are still in need of a lead for Subgroup #3. Friendly reminder that Subgroup # 3 will focus on developing a template PEG members can align on what we will ask suppliers/ contractors related to Sustainability ESG- Consider a template of some sort and report back to PEG. Please send recommendations or nominations to Corey McShannon.
7. Next meeting to be held in Q1 2023 (end of February most likely) invite forthcoming.
8. Spring PEG conference scheduled for March 29-31st , 2023 (Wednesday – Friday) – Scottsdale, Arizona

Thanks again for taking the time to support this Workgroup and help your company and the PEG

group gain a better understanding on Sustainability.

Should you have any questions please do not hesitate to reach out to me.

Thanks,

Corey
